REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The present application relates to a configuration of connection wires and signal transmission for supplying power and video signal between an electronic endoscope which is a scope and a processor which is connected with the electronic endoscope. The various cited prior art of record do not anticipate or render obviousness an electronic endoscope apparatus comprising:

an electronic endoscope equipped with an image pickup device;

a main unit which is connected with the electronic endoscope and includes a processor unit;

a common power/signal line which connects the electronic endoscope with the main unit; a power supply circuit which is installed in the main unit and supplies power to the electronic endoscope via the common power/signal line;

a video waveform superimposing circuit which is installed in the electronic endoscope and superimposes a video signal obtained by the image pickup device on the power transmitted through the common power/signal line;

a pulse waveform superimposing circuit which superimposes reference pulses on a blanking period in the first field or first frame of the video signal;

a pulse separating circuit which separates the reference pulses superimposed on the common power/signal line; a circuit which forms a signal in synchronization with the reference pulses; and
